## Do you have a low-energy sustainable home in the Lewes District?

**Are you willing to open it to the public to inspire and inform others to do the same?**

Ovesco will be holding an Eco Open Homes event in Lewes, Ringmer, Barcombe, Seaford, Newhaven, Rodmell and Kingston on 14/15th and 21st/22nd September 2024 and are looking for homeowners willing to open their homes during some of that time. We will provide all the help you need to make it a success.

If you have a combination of two or more of the following; heat pump, solar PV, battery storage, electric car charging or insulation, then we would love to hear from you.
